1. Bless Your Heart

Bless your heart
Bless your heart
Bless your heart
Bless your heart

Nature you're always there for me
You're my mama you gave I birth and set I free
Bless your heart

When I'm weak you give me strength
When I cry you dry my tears mama
Bless your heart

When I'm down you pick me up
When I'm sad you make me glad and I'm satisfied
Bless your heart
Bless your heart
Bless your heart
Bless your heart

I will never forget I will never regret
How you stand by me when I'm tired and dreary
How you comfort me
Bless your heart
Bless your heart
Bless your heart
Bless your heart

2. One More River

One more river to cross
One more river to cross
But when the sun says goodbye
To the morning then they'll be
No more river to cross

One more river to cross
One more river to cross
Only the chosen few
Will reach the other side
One more river to cross

The master's cup is full and running over
While violence seem to be taking over
But not until the sun say goodbye
To the morning before they'll be
No more river to cross every day

Another river to cross
Another river to cross
Only the chosen few
Will reach the other side
One more river to cross

3. Don't Turn Your Back

Just a look and you'll see
Oh what happiness surround us it's for free
Oh oh oh time and time again
I do hope for us to understand that

Now is the time when we shouldn't let
Problems get us down
When you find the way
Then you'll surely say
Oh happiness where have you been so long
When you find the say

Don't turn your back
Stay on that track
Don't turn your back
Stay on that track

I know there are many many sad stories
But don't let such memories take control of you
Oh oh oh time and time again
I do hope for us to understand that

Now is the time when we shouldn't let
The crisis get us down
When you find the way
Then you'll surely say
Oh happiness where have you been so long
When you find the say

Don't turn your back

BOOGIE BROWN PRODUCTIONS

Stay on that track
Don't turn your back

4. Love Is In The Air

Love is in the air
Love is far and near
Love is everywhere
Can you hear it feel it see it taste it

Love is in the air
Love is far and near
Love is everywhere
You can get it if you want it

Listen and you will hear
Oh don't be despair
Have a little faith
Just a little bit more

Look and you will see
What's happening to you and me
With love we've got a date
And I don't wanna be late

So long I've been waiting
Waiting for that moment
When love comes pouring like raindrops
This must be that moment
Why I'm feeling this way
Feeling this way
Feeling this way
This special way I can't explain

5. Just a Dream

A dream is just a dream
A dream is just a dream without you
A dream is nothing more
A dream is nothing less without you

A song is not a song
A song is not a song without words
There's no right or wrong
There's no right or wrong without intelligence

The man next door is your brother
Just like that person in the mirror

You and I reflect one another
How long shall we run from the truth
Yes we can run but we can't hide
Oh no no no no no
No me without you
No you without me just like a team
Me for you
And you for me
The way we ought to be no in between
What's the use of a telephone if nothing
is at the other end
It's time we realized that no one no one
stands alone

Sky's the limit and we ain't gonna stop
Some way some how we've got to unite
Love's without measure
Sweeter than a lollipop
Come on come on down and take a bite
Go tell it to the town
Go tell it all around
But please remember now
Oh please remember that

Seasons come and seasons go
Just like the water flows when it rains
There's much to be achieved
If only we believe in you and me
Let your feelings go
Let the rhythm flow
Where it may
Freedom comes from deep within
Listen to the children sing
Oh hear them say

6. Halleluyah

We're all but little children
Playing in the sand of time
Exploring its meadows
Finding little hills to climb

This world is like a garden
And we are the flowers
Some bloom in and out of season
Some never bloom at all

Will someone please tell me tell me why tell me why
Innocent babies have to cry
The reason the reason we may never know

Just plant good seeds and let them grow
Let's move move move to the rhythm of life
And accept the things the things we cannot change
Come on let's groove groove groove to the rhythm of life
Just have a little faith the future shall be great
Hold on hold on hold on

Justice must be done
Before the break of dawn
Justice must be done
Before the day is gone gone gone

With deep meditation
And a firm concentration
We will fight the struggle
The battle must be won

Throw down the heavy load and
Think for awhile
If we can make a difference
By just a little smile

Then we've got the power to make
This world a better place
Pick up the pieces
Put them together

Cause we're moving we're moving from the past
Soon we'll be singing
Free at last free at last

Let's move move move to the rhythm of life
And accept the things the things we cannot change
Come on let's groove groove groove to the rhythm of life
Just have a little faith the future shall be great
Hold on hold on hold on

Justice must be done
Before the break of dawn
Justice must be done
Before the day is gone gone gone

We will be singing glory hallelujah
We are free at last
Glory glory glory hallelujah
We are free at last... repeat

stop the hate
stop the hate
stop the hate

brothers killing brothers all over the world
and forget about humanity
sisters against sisters confusion everywhere
we've got to face reality
mother and father they bit the sour grape
and now we're left with the after taste
life is for the living and not for the dead
don't let the system get to your head

hey stop the hate stop the hate
stop the hate now and don't be too late
oh stop the hate stop the hate
eliminate the hate now brother

blood painted walls memories by the score
the fight for power is out of control
smoke and debris from skin flesh and bones
oh it hurt my very soul
this crazy Babylon system is now at its peak
but I know Jah will protect the meek
wake up every morning with the same song in my head
want you to help help I sing help I sing this song

when will we ever learn that love is the key
love is the key to happiness
true power comes from within not by shedding
one another's blood
it makes no sense to crucify ourselves
some say a tooth for a tooth and an eye for an eye
let your conscience be your guide
wake up every morning with the same song in my head
want you to help help I sing help I sing this song

Too long too long too long too long too long (repeat)

Hey a say loneliness for my company
Tears for my coffee
Sorrows for my bread
Thickets and thorns for my bed too but

When will it be when will it be

Too long too long too long too long too long (repeat)

Way over yonder
The flowers of happiness
Blooming so slow
Blooming slow but sure yes

A wha dem a go do
When the tables turn
